

Project Overview & Task Stack

Project Title: RPS Arena – Rock Paper Scissors Game

Week 1: Project Setup, Requirement Analysis & Base Structure

Focus: Initializing the development environment, understanding game requirements, and creating the basic project structure.

Tasks:

- **Project Setup:** Create a new Java project named "RPS Arena" in Apache NetBeans IDE.
- **Environment Configuration:** Verify Java JDK installation and ensure the project runs successfully.
- **Project Research:** Study the rules and gameplay mechanics of Rock Paper Scissors.
- **Requirement Analysis:** Identify functional and non-functional requirements for the game.
- **Base Structure Creation:** Create the main Java class (RPSArena.java) and establish the initial project framework.
- **Project Documentation:** Prepare project title, objectives, tools/resources, and development plan documentation.
- **Initial Output Test:** Display a simple welcome message to verify successful project execution.

Week 1 Deliverables:

- ✓ NetBeans Project Created
- ✓ Main Java Class Created
- ✓ Project Requirements Documented
- ✓ Development Environment Verified
- ✓ Initial Program Executed Successfully
